

Get to know your Smart Plug

LED Indicators

Solid blue: Device is on.

Blue blinking: Device is ready for setup.

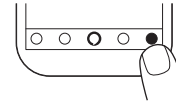

Blue rapid blinking: Setup is in progress.

Red blinking: No network connection or setup has timed out.

OFF: Device is off.

Set up your Smart Plug

1. Download the latest version of the Alexa app from the app store.
2. Tap the Devices icon in the lower right of the Alexa app, then follow the on-screen instructions to add the device. If prompted by the app to scan a barcode, scan the 2D barcode on the back of the smart plug.

3. Plug your device into an indoor power outlet. Follow along in the app to finish setting up your smart plug.
